Survey: Quantity Limits on Short-Acting Painkillers and Prescription Monitoring Program

June 3rd 2015

Prescribers and Pharmacies

To better serve providers and members, please take a moment to complete the following survey. We are asking for your feedback on the limits placed on the number of short-acting painkillers as well as the use of the prescription monitoring program (PMP). The survey is anonymous, information and feedback will be used for quality assurance and process improvement purposes.

The target audience is prescribers, pharmacists, and pharmacy technicians.
Prescribers include: physicians, dentists, physician assistants, nurse practitioners.

There are 10 questions as well as a comments or suggestions question at the end of the survey. All survey questions require an answer and the survey should take approximately 5 minutes to complete.

Instructions

Follow the web-link to the survey or type the link in your web browser *exactly* as it appears:
