Health Homes Administrative Component

Name of Health Homes Program:
OK HH - adults

Monitoring

Provide an estimate of the number of individuals to be served by the Health Homes program during the first year of operation:
13800

Provide an estimate of the cost-savings that will be achieved from implementation of the Health Homes program during the first year of operation:
$1891375.00

Describe how this cost-saving estimate was calculated, whether it accounted for savings associated with dual eligibles, and if Medicare data was available to the State to utilize in arriving at its cost-savings estimates:
The State estimate of savings is based on the 90 percent enhanced Federal Medicaid Assistance Percentage (FMAP) for health home services. See also rate calculations spreadsheet to be submitted under separate cover.

Quality Measurement

CMS Recommended Core Measures

For each Health Homes core measure, indicate the data source, the measure specification, and how HIT will be utilized in reporting on the measure.

<table>

<tr>
<th>Health Homes Core Measure</th>
</tr>
</thead>
</table>

State Goals and Quality Measures

In addition to the CMS recommended core measures, identify the goals and define the measures the State will use to assess its Health Homes model of service delivery:

<table>
<thead>
<tr>
<th>Health Home Goal</th>
</tr>
</thead>
<tbody>
<tr>
<td>Adult Health Home members will experience improved coordination of care</td>
</tr>
<tr>
<td>Adult Health Home members will experience improved preventive care</td>
</tr>
<tr>
<td>Adult Health Home members will experience improved health outcomes</td>
</tr>
</tbody>
</table>

Health Homes Administrative Component: Measure Detail

Measure
Care Transition – Transition Record Transmitted to Healthcare Professional

- The measure is an Evaluation Measure from the Health Homes State Plan for purposes of determining the effect of the program on reducing one of the following:
  - Hospital Admissions
  - Emergency Room Visits
  - Skilled Nursing Facility Admissions

- The measure is not included in the Health Homes State Plan

Measure Specification, including a description of the numerator and denominator.
Numerator: Members for whom a transition record was transmitted to the facility or primary physician or other healthcare professional designated for follow-up care within 24 hours of discharge.

Denominator: All members, regardless of age, discharged from an inpatient facility (e.g., hospital inpatient or observation, skilled nursing facility, or rehabilitation facility) to home/self care or any other site of care.

Data Sources:
EMR

Frequency of Data Collection:

- Monthly
- Quarterly
- Annually
- Continuously
- Other

Health Homes Administrative Component: Measure Detail

Measure
Percent of outpatients with a diagnosis of hypertension (uncomplicated) on antihypertensive multi-drug therapy where the regimen includes a thiazide diuretic.

- The measure is an Evaluation Measure from the Health Homes State Plan for purposes of determining the effect of the program on reducing one of the following:
  - Hospital Admissions
  - Emergency Room Visits
  - Skilled Nursing Facility Admissions

- The measure is not included in the Health Homes State Plan

Measure Specification, including a description of the numerator and denominator.
Numerator: Number of unique outpatients with a diagnosis of hypertension (uncomplicated) on antihypertensive multi-drug therapy with an active prescription for a thiazide diuretic.
Denominator: Number of unique outpatients with a diagnosis of hypertension (uncomplicated) on antihypertensive multi-drug therapy
