New Medicaid program for children with severe disabilities begins

Applications are being accepted for a new Oklahoma Health Care Authority program that may allow children with severe disabilities who were previously ineligible to qualify for Medicaid benefits.

TEFRA (Tax Equity and Fiscal Responsibility Act) makes benefits available for children with physical or mental disabilities who would not ordinarily be eligible for Supplemental Security Income (SSI) benefits because their parents' income or resources were too high. Under TEFRA, only the child's income and resources are counted.

Applications are being accepted at county offices of the Oklahoma Department of Human Services. To be eligible for TEFRA, a child must meet income guidelines, be younger than age 19, live at home, meet the Social Security Administration's definition of disability and require an institutional level of care. Also, it must be appropriate to provide care at home, and the cost of care can't exceed the estimated cost of treating the child in an institution.

Children who qualify for TEFRA will receive the full scope of Medicaid services, such as inpatient and outpatient treatment, prescription drugs, occupational and physical therapy and medical equipment.

For more information about the TEFRA program, visit the Oklahoma Health Care Authority Web site at <http://www.okhca.org> or call the **SoonerCare** helpline toll-free at (800) 987-7767, 522-7171 in the Oklahoma City area or (405) 522-7179 for TDD/TTY.
