### Federal waiver approved to expand health care access

*Oklahoma City* – State officials announced today that the Oklahoma Health Care Authority (OHCA) has earned approval from the federal government to provide health plan premium assistance to Oklahoma's low income individuals and small businesses for health care coverage. With the approval, the Oklahoma Employer/Employee Partnership for Insurance Coverage (O-EPIC) will begin taking employer applications on November 1. O-EPIC is the first phase of the statewide *Insure Oklahoma* initiative designed to use public and private partnerships to make health insurance more affordable.

The Centers for Medicare and Medicaid Services announced the approval for the proposal under the Health Insurance Flexibility and Accountability Demonstration Initiative. The OHCA was authorized to apply for the waiver when Governor Brad Henry and the state legislature worked together during recent legislative sessions to pass measures to increase access to affordable health coverage.

The program will initially be open to all Oklahoma employers with 25 or fewer workers, including those that currently offer health insurance coverage. Premium assistance will be available for workers and spouses with household incomes at or below 185 percent of the federal poverty level. For example, a family of four must have a total income at or below \$35,797.

Participating employers, as well as employees, will be required to pay a portion of the premiums. Employees will also be responsible for any applicable deductibles and co-payments. Employers will be required to contribute 25 percent of the premium amounts. Individuals will pay up to 15 percent of the monthly premium, the state and federal government will pay the remaining share. The state has appropriated \$50 million to the initiative. The state's subsidy will be matched each year with approximately \$100 million in federal funds.

The O-EPIC program will make affordable health coverage available to adults throughout the state who are either uninsured or at risk of losing their coverage due to high premium costs. Since January when the OHCA announced that it was applying for the proposal, the agency has received more than 2,000 inquiries from small businesses and employees who need health plan coverage. When the program is fully operational, the agency expects to enroll between 50,000 to 70,000 Oklahomans based on the current funding.

Visit [www.oepic.ok.gov](http://www.oepic.ok.gov) website for more information concerning the program.
